Request for Consolidated or Combined Filing of Single Business Tax Returns

For complete information, request Revenue Administrative Bulletin 1989-49.

Sections not referenced here are explained on the form.

Purpose: To request consolidated or combined filing for affiliated business groups as provided under the Single Business Tax Act, Section 77. This request must be filed before the date set for filing or the extended due date of the annual return for the taxable year for which the taxpayer is requesting consolidated filing.

An **affiliated group** is two or more corporations, one of which owns or controls, directly or indirectly, 80% or more of the outstanding capital stock with voting rights of the other corporation or corporations.

PART 3

If there are more than four eligible members, complete a second request form. Number the first form "1 of 2" and the second "2 of 2," etc.

PART 4

List reasons for requesting consolidated or combined filing of the *Single Business Tax Annual Return*. Give pertinent information to support the request for this method of filing. This form must be filed whenever there are changes in the affiliated group, including:

- Adding or deleting a member
- Significant changes in the type of or amount of transactions between eligible members; **or**
- Other changes that affect the filing as affiliated group.

If this request is for approval of a change in the affiliated group, give the previous controlling corporation's account number and the SBT authorization number.

PART 5

Enter a brief description of the Michigan business activity and the intercorporate transactions for each eligible member (e.g., sales of lumber, rental of equipment, etc.). Enter in the last column the section number of the Single Business Tax Act to be used in apportioning tax base of multi-state members (e.g., 45 – three factor, 57 & 58 – transportation, 62 – domestic insurer, 65 – financial organization).

PART 6

Complete this section using information from the taxable year for which consolidated filing is being requested. Intercompany sales and purchases are defined in the Single Business Tax Act Section 77(b) (MCL 208.77(b)). Enter each member's total sales and the sales to each eligible member. Divide the sales to each member by the total sales and enter the percent in the appropriate column. Enter the cost of operations for the member. Cost of operations is the cost of goods sold plus other ordinary business deductions, but does not include costs relating to functions of control, ownership and financing. Enter the purchases from each other eligible member and divide the purchases from each member by the cost of operations and enter the percent in the appropriate column.

① **Note:** The sum of the percentages must be at least 10% for each eligible member. If not, the affiliated group does not qualify for consolidated or combined filing.

EXAMPLE:

Sales to Eligible Members					Purchases from Eligible Members				
A. Corp. A - Total Sales <u>5,000,000</u>					Corp. A - Cost of Operations <u>4,750,000</u>				
<u>Sales to Members</u>	<u>% of Sales</u>		<u>Sales to Members</u>		<u>Purchases from Members</u>	<u>% of Operations</u>		<u>Purchases from Members</u>	
A XXXXXXXXXXXXX	XXXXX%	C	%		A XXXXXXXXXXXXX	XXXXX%	C	%	
B <u>900,000</u>	<u>18</u> %	D	%		B <u>0</u>	%	D	%	
B. Corp. B - Total Sales <u>3,500,000</u>					Corp. B - Cost of Operations <u>3,200,000</u>				
<u>Sales to Members</u>	<u>% of Sales</u>		<u>Sales to Members</u>		<u>Purchases from Members</u>	<u>% of Operations</u>		<u>Purchases from Members</u>	
A - 0 -	%	C	%		A 900,000	28.125%	C	%	
B XXXXXXXXXXXXX	XXXXX%	D	%		B XXXXXXXXXXXXX	XXXXX%	D	%	

Corporation A qualifies as an eligible selling member because sales to Corporation B are at least 10% of Corporation A's sales. Corporation B qualifies as an eligible purchasing member because at least 10% of its cost of operations are purchases from Corporation A.
